A short introduction to Keith

1. Keith trained at Weston-Super-Mare Technical College and Art School, Bournemouth College of Art and Southampton University for a total of 5 years.
2. He then launched into teaching in the United Kingdom and abroad for the following 30 years and apart from his day job at secondary schools, he also spent dedicated time with youngsters who had difficulties adjusting to the trials and tribulations of life.
3. Keith has exhibited in about twelve venues since retiring in Cyprus and is still giving of his time to cancer patients and people who suffer from dementia. He strongly believes that art is a great healing therapy.

Keith lives and works in Lasa, north of Paphos in Cyprus, and visiting his studio is an experience in itself! Recently he has branched out into pottery as well.

Next time I will show you some photographs of his studio and – I hope! – of him at work. Meanwhile, enjoy the great show that Cyprus is putting on right now : almond blossom!

Till next time, keep looking!
Maria.

*Unfortunately there is no name of the photographer for this one. Whoever took this, thank you!
